

AngioDynamics Announces Introduction Of Soft-Vu® 4F High Flow Angiographic Catheters

Queensbury, NY; July 9, 2003 – AngioDynamics, Inc., a wholly owned subsidiary of E-Z-EM, Inc., (AMEX: EZM) announced today the introduction of Soft-Vu® 4F High Flow Angiographic Catheters—an innovative line of catheters that is used in diagnostic endovascular procedures.

Soft-Vu® 4F High Flow Angiographic Catheters have enhanced Super-Radiopaque™ soft catheter tips and a larger inner diameter—features that help provide better visualization and higher contrast flow rates, and permit the passage of a .038” guidewire. Improved visualization allows for more accurate catheter placement. The catheter tip reforms and maintains shape, even under injection pressure, resulting in reduced whipping effect while contrast is injected and reduced risk of vessel wall injury.

Commenting on the announcement, Michelle Mechaley, Director of Angiographic Products for AngioDynamics, said, “The introduction of Soft-Vu 4F High Flow Angiographic Catheters continues our tradition of being at the forefront of technology in this important market. AngioDynamics is a leader in non-coronary angiographic catheters, and this introduction is evidence of our ongoing commitment to developing high-performance catheters designed to advance the art and science of vascular procedures and patient care.”

For additional information on the 4F High Flow Angiographic Catheter, contact Michelle Mechaley at 1-800-772-6446, ext. 341, Email: mmechaley@angiodynamics.com or visit the AngioDynamics web site at www.angiodynamics.com.

About E-Z-EM

E-Z-EM, Inc. (www.ezem.com) is a leading supplier of products used by radiologists, gastroenterologists and speech language pathologists for the diagnostic imaging of diseases and disorders of the GI tract, ranging from swallowing disorders (dysphagia) to colorectal cancers. E-Z-EM also is a third-party contract manufacturer of diagnostic contrast media, pharmaceuticals, non-prescription healthcare products, and defense decontaminants.

About AngioDynamics

AngioDynamics, Inc. (www.angiodynamics.com) is a leading supplier of products used by interventional radiologists and other physicians for the minimally invasive diagnosis and therapeutic treatment of peripheral vascular disease.
