

Federal Judge Rules on Motion in VenaCure(R) Patent Infringement Case

AngioDynamics will Launch Replacement Product, Plans to Proceed with Appeal

QUEENSBURY, N.Y.--(BUSINESS WIRE)--May 22, 2007--AngioDynamics, Inc. (NASDAQ:ANGO) announced today that a Federal District Court judge in Boston has denied the Company's motion to overturn a March 28, 2007 jury verdict that its original bare fiber design VenaCure laser treatment infringes on Diomed Inc.'s U.S. patent No. 6,398,777.

AngioDynamics disagrees with the judge's rulings on multiple grounds and is planning to file an appeal in the U.S. Court of Appeals for the Federal Circuit in Washington, D.C.

The judge indicated that Diomed is entitled to some form of injunction, but did not rule on the scope. The court instructed the parties to attempt to agree upon specific injunction language within one week. If the parties are not able to agree, they are to submit additional briefs to the court by May 29.

In the event the verdict is not reversed on appeal, the parties agreed today that the judgment for monetary damages against AngioDynamics can be increased by \$1.35 million to cover pretrial interest and post verdict sales. Damages would then total \$9.71 million if AngioDynamics' appeal is unsuccessful. The Company recorded a \$9.6 million litigation provision in its financial statements for the fiscal third quarter ended March 3, 2007.

AngioDynamics also announced today that it plans to begin shipping its new NeverTouch™ VenaCure® procedure kits on June 2, 2007. The Company stopped shipment of bare fiber VenaCure on April 27, 2007 and will fulfill all future product orders with NeverTouch VenaCure.

About AngioDynamics
